

## Application

Brick vents provide a permanent means of ventilation for crawl spaces, hung ceilings, incinerator rooms, chimney flues, foundations, pipe spaces, and corridors. Extruded construction provides a quality finished appearance. Water stops and deep overlapping blades, each with integral storm drip, provide maximum resistance to rain and weather.

## Standard Construction

Frame: Heavy gauge 6063T5 extruded aluminum, .125" nominal wall thickness. Model BVE frame is 4" deep with 1/8" mortar ribs top and bottom (adding 1/4" to nominal height). Model BVF frame is 1-1/2" deep (fastener heads add 1/4" to nominal width).

Blades: Heavy gauge 6063T5 extruded aluminum, .125" nominal wall thickness. 45° blades overlap for optimum visual screening

Screen: 18 x16 mesh aluminum insect screen

Finish: Clear Anodized

Sizes Available: Standard sizes shown below. Other sizes available to maximum of 96"x 96"

## Options (at additional cost)

Single blade damper with stainless steel spring and stainless steel pull chain. (Models BVE & BVF)

Straight Duct: .063 aluminum (for up to 12" wall thickness)

Anodizing: Medium Bronze, or Dark Bronze

Powder Coating:  Standard super durable polyester

70% Fluoropolymer

QUANTITY	BVE	BVF	MODEL	NOMINAL SIZE	FREE AREA (SQ. FT.)	OPTIONS/ACCESSORIES/VARIATIONS
			825	8-1/8" X 2-3/8"	.036
